PhD researcher in Human-Computer Interaction with expertise in usability studies, surveys, contextual inquiry, and experimental design. Experienced in integrating user research into product development and interactive systems.

EXPERIENCE

Creating Ethics Infrastructures Lab | Graduate Researcher

Jan 2025 - Present | Atlanta, GA

- Designed and conducted interviews and role-playing studies to examine software engineers' communication practices around AI ethics.
- Delivered a **semi-systematic review of 26 academic publications** on ethical principles of Emotion AI through analysis, providing a comprehensive ethical framework for Emotion AI. ([Link](#))

Agoda (Booking Holdings) | Product Design Intern

Jun 2023 - Aug 2023 | Bangkok, Thailand

- Applied user research insights and data-driven solutions to enhance cart feature for **86M users**, contributing to **+20% incremental bookings**.
- Collaborated closely with PM, engineers, and designers to align on strategy, execution, and feasibility.

Sloane Lab (Responsible AI Research Group) | Researcher

Nov 2022 - Jan 2025 | Remote, USA

- Designed and conducted mixed-method studies (interviews, co-design workshops, surveys) with 50+ participants across HR, design, and motion capture; **applied statistical and thematic analysis** to synthesize insights into responsible AI practices.

Interdisciplinary Media Arts Center | Graduate Researcher

Sep 2024 - Present | Atlanta, GA

- Conducted evaluations of interactive systems using **iterative contextual inquiry** and thematic analysis to assess how data representation shapes emotional and embodied responses.

EDUCATION

Georgia Institute of Technology | Ph.D. in Digital Media (Human-Computer Interaction Focus)

Aug 2024 - Present | Atlanta, GA

Advisor: Dr. Yanni Loukissas

New York University | M.S. in Integrated Design and Media

Sep 2022 - May 2024 | New York, NY

Master's Thesis: [AI Through Your Lens: An Interactive and Immersive Experience About AI Imaginaries](#)

University of Washington | B.S. in Human-Centered Design and Engineering

Sep 2018 - Jun 2022 | Seattle, WA

PUBLICATION

License to Speak Up: Investigating Tensions in Software Engineers' Communication Practices around Ethics through a Role Playing Activity

Under Review

"It's Just a Reflection of Our Society": Investigating Gender Bias and Harms of Generative Image AI Through Women's Narratives in Co-Design Fiction

Under Review

What's going on in Accessibility Research?' Frequencies and Trends of Disability Categories and Research Domains ([Link](#))

ACM SIGACCESS 2022 | Athens, Greece

SKILLS

User Research: Usability Testing, Contextual Inquiry, Interviews, Focus Groups, Surveys, Ethnography

Data & Analysis: Experimental Design, Statistics, Python, R, SQL, Tableau

Design & Development: Prototyping (Figma, XD), HTML/CSS/JavaScript, React
